What the numbers look like in practice.

The following examples show how debt resolution through Canadian Debt Liberty improves deal outcomes for your clients. In each case, unsecured debt is settled for less than the full balance using a lump sum from mortgage proceeds — turning a stuck file into a closed deal.

Example A

$300K Home

Shortfall eliminated. Deal closes with surplus.

Example B

$450K Home

Client saves on debt even when they can qualify.

Example C

$750K Home

Large unsecured load + CRA — resolved.

From shortfall to surplus — $300K home.
